

# Hey Washington County\*, we clean more than **65 million gallons** of water per day and plant nearly **a million trees** per year.

But we can't do it without you. Look inside to see how your rates have a beneficial impact, beyond your own backyard. Get water literate at [cleanwaterservices.org](http://cleanwaterservices.org).

\*and small portions of Multnomah and Clackamas Counties

HILLSBORO JUNE

## Quality counts. Proposed rates begin July 1, 2018.

Sanitary sewer rates are proposed to increase **\$1.33 a month** for the average household. The Surface Water Management (SWM) fee is proposed to increase **\$.50 per month** for the average household. These proposed increases will take effect July 1, 2018 and will be shared proportionately between Clean Water Services and its member cities. The increases are necessary to meet stringent federal pollution control safeguards and protect public health, the Tualatin River and local waterways.

Your Sanitary Sewer and SWM bill also includes a 3.5% City of Hillsboro Right-of-Way fee. For more information please contact the **City of Hillsboro**.

Combining science and nature, we work in partnership with our member cities to safeguard the river's health and vitality, ensure the economic success of our region, and protect public health for nearly 600,000 residents and businesses in urban Washington County.

### How your dollar is shared to protect public health and the environment

#### Sanitary Sewer: Collect & Clean Water

#### SWM: Drainage & Pollution Prevention

Made in Oregon, Clean Water Grow® All-Purpose Plant Food is perfectly formulated for flowers, shrubs, fruits, and vegetables. The slow-release formula provides a steady supply of vital plant nutrients for up to six months.
